How Does It Work?

Step 1: Drop Off Your Item

Visit our store and drop off the items you would like to sell. We will ask you for any information you may have about the item that may help us with selling it. We will do some quick online research to find the item's estimated value.

Step 2: We Sell The Item

We save you time by taking professional, digital photos of your item(s) and writing a detailed description, listing it on eBay. We research your item and place it in the most appropriate selling category. This assures the highest selling price for your item. If prospective buyers have any questions, our customer service team will promptly answer their queries. During the bidding process, your item(s) will be stored in a secure storage until the sale is finalized.

Step 3: You Get The Cash

We collect funds from the highest bidder. Once funds have been collected, your item will be carefully packaged and shipped to the buyer. You will receive Cash or Check representing the sales price less applicable fees.
